

Technical characteristics		
	single-leaf version	double-leaf version
Door leaf weight	up to 120 kg	up to 2 x 120 kg
Opening width ECdrive (ECdrive-FR)	700 - 3000 mm (900 - 3000 mm)	900 - 3000 mm
Clear passage height	max. 3000 mm	
Hold-open time	0 - 60 s	
Opening speed	up to 0,7 m/s per leaf	
Closing speed	up to 0,5 m/s per leaf	
Mains connection	230 V AC +6% - 10% at 50 Hz or 60 Hz	
Enclosure rating	IP 20	
Power consumption	max. 300 VA	
TÜV approved	yes, according to DIN 18650	

Hint:

- ▶ The opening width and clear passage height stated above are standard dimensions. Special dimensions available on request.
- ▶ If the maximum opening width is combined with a large clear passage height, keep in mind that the maximum leaf weight must not exceed 120 kg. (standard ISO profile system = approx. 30 kg per m² leaf weight)
- ▶ For external installations with an opening width of more than 2000 mm, a continuous floor guide is recommended.
