

Automatic telescopic sliding door systems

GEZE Slimdrive SLT / SLT-FR

Airport Köln-Bonn

Slimdrive SLT / SLT-FR

The **reduction** to the essential opens up new **dimensions**

GEZE opens the doors to diverse solutions and makes room for your own ideas. Without limiting convenience and safety we penetrate into new dimensions for automatic doors.

Slimdrive SL is representing optimised sliding door technology. With an overall height of only 7 cm this drive system leaves no space for superfluous things. Convincing by perfection on the smallest scale: Fully-modular system control with 16 bit high-performance microprocessor, easy mounting, broad range of adjusting possibilities, high reliability with regards to all functions etc.

The little sister system presents itself in top form as well. GEZE Slimdrive SLT is the name of the drive for telescopic sliding door systems.

The Slimdrive SLT system is used for double or four-leaf telescopic sliding doors made of 22 mm isolating glass or frameless leaves (GEZE I.G.G.) with concealed fittings.

Interior and exterior doors with leaf weights of max. 2x 70 kg are moved reliably, unobtrusively and nearly invisible (overall height 70 mm) by the little one. Slimdrive SLT renders possible opening widths of up to 3600 mm.

Design convinces - Safety decides

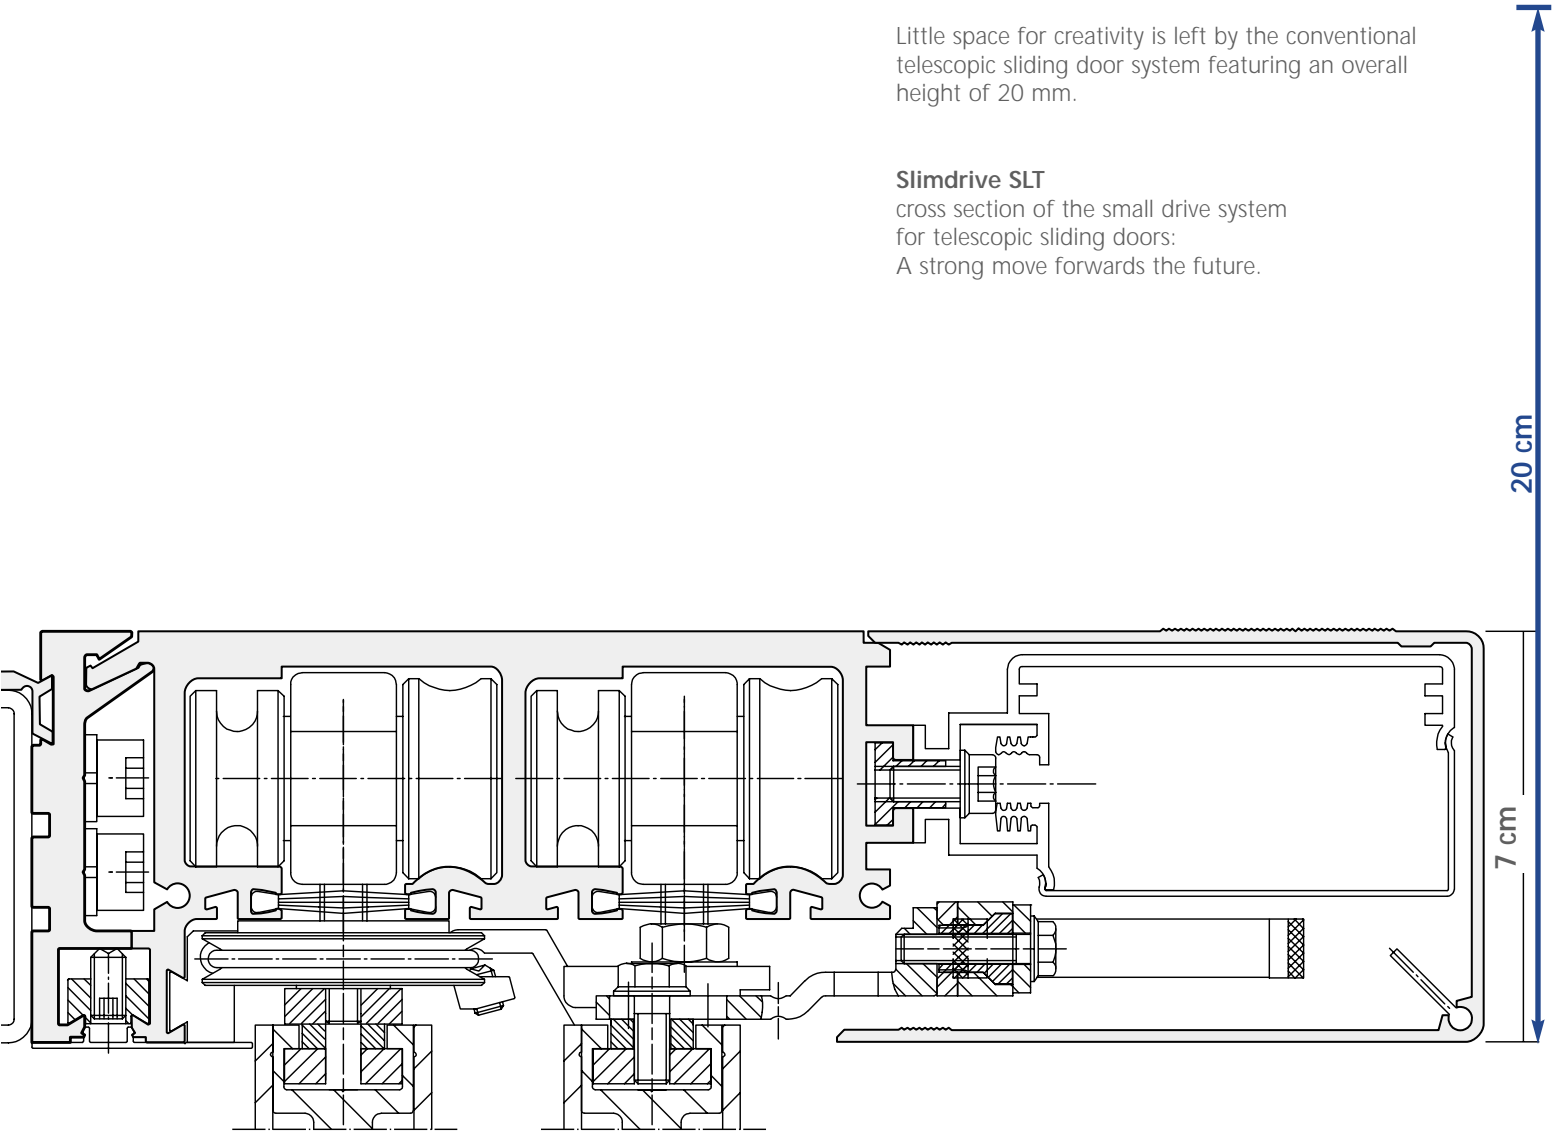

The Slimdrive SLT spurs architects on to dare the venture into unknown galaxies of façade design. Economical use of materials and energy means transparency and with regards to design the limits of creativity lie in the distant future.

One argument that is quite obvious: GEZE Slimdrive SLT-FR means safety. In the case of emergency 7 cm can save lives. Slimdrive SLT-FR. A small, strong piece of highly concentrated GEZE technology, approved for the use on escape routes.

Little space for creativity is left by the conventional telescopic sliding door system featuring an overall height of 20 mm.

Slimdrive SLT
 cross section of the small drive system
 for telescopic sliding doors:
 A strong move forwards the future.

| | |
|-----------------------------------|---------------------------------|
| Product features | |
| Opening width, double-leaf | 1000 - 3000 mm |
| Opening width, four-leaf | 2000 - 3600 mm |
| Leaf weight, double-leaf | max. 2 x 70 kg |
| Leaf weight, four-leaf | max. 4 x 60 kg |
| Opening speed | 0,7 m/s |
| Closing speed | 0,4 m/s |
| Leaf height | up to approx. 3000 mm |
| Overall measurements | 70 mm x 247 mm (height x depth) |
